Liz is an RPM like myself and will be working with me and Dan on the RI-type activities. She is an engineer and has been working for the last 4-5 years on the RI for Libby Montana Superfund site that has extensive asbestos contamination.

What is Liza role? I didn't get a chance to talk to her at the meeting.

Peter – Since Liza Fagan will be working on the Upper Animas with Dan Wall and myself, can you add her to your email list for ARSG meeting notes, agendas, etc. I've copied her on this email so you will have it. Thanks.

Paula – I will probably send these out to the email list when I get the meeting notes pulled together.
